Virtual Public Statement Hearings To Be Held on North Side Energy Center's Application to Build Solar Farm

ALBANY — The New York State Board on Electric Generation Siting and the Environment (Siting Board) announced that it will hold virtual public statement hearings on Tuesday, October 26, 2021, regarding the application of North Side Energy Center, LLC (North Side) for authority to construct and operate a solar farm in St. Lawrence County. The project would have a generating capacity of 180 megawatts and would be located on approximately 2,200 acres in the Towns of Massena, Brasher, and Norfolk.

The application consists of a filing made on February 19, 2021, and supplemental filings made on May 27, 2021, and July 2, 2021. The project would consist of commercial-scale solar arrays, access roads, buried and/or overhead electric collection lines, a collection substation, and electrical interconnection facilities. The project will include a 115-kilovolt (kV) switchyard which will be transferred to the New York Power Authority (NYPA) to own, operate, and maintain. The proposed point of interconnection will be NYPA's existing Massena – Moses 230 kV transmission line and substation. The project would be located on land owned by North Side or leased from owners of private property. The height of the solar panels in the project array will be approximately 15 feet.

PLEASE TAKE NOTICE that public statement hearings will be held virtually before the assigned Administrative Law Judges, as follows:
